

## For your perfect trade fair preparation: the new exhibitor checklist

Dear xxx,

The planning of Ambiente is in full swing, and as always, it is very important to us that you fully benefit from your participation for your own business success. To make your preparations easier, we would like to highlight our new digital exhibitor checklist to you.

For 2025, you will now find all relevant information and deadlines for your perfect trade fair preparations digitally [here](#).

For a successful trade fair, the new checklist is structured chronologically and will guide you right from the registration phase through the entire process of organizing your participation. All details are continuously updated throughout the entire trade fair cycle. Exhibitors participating for the first time may find there a [video tutorial](#) about the ordering process. The search function will help you to find any information you might need more quickly.

If you hire a stand builder for your stand construction, please pass this link with all relevant information on: [Portal for Stand Constructors and Event Agencies](#).

Are you wondering how you can further maximize your trade fair success? You may find all information about our logistics, catering and marketing services in the service documents that will be sent to you shortly before the [Shop for Exhibitor Services](#) opens.

With kind regards

Yvonne Engelmann  
Director Ambiente Living/Giving/Working

Thomas Kastl  
Director Ambiente Dining
